

22 DEC 1958

Thermal Research Company  
P.O. Box 687  
Columbus 5, Ohio  
ATTN: Mr. A. A. Tarasch

Dear Mr. Tarasch:

Your letter of 6 December to Mr. Dulles has been referred to me for reply.

We have noted the steps that you have taken to bring your invention before the appropriate authorities and are sorry to have to advise that this is a matter on which we cannot be of assistance in view of the fact that this Agency has no responsibility in the field of domestic inventions of this kind.

We have referred a copy of your letter to the appropriate unit in the Department of Defense and would like also to suggest that you make contact with the National Inventors Council, 1215 D Street, S.E., Washington, D.C. This Council was established several years ago by the President to bring to the attention of appropriate government agencies, inventions of national interest and I believe would be the appropriate organization with which you should deal.

Sincerely yours,

Deputy Assistant Director
